The Age-Based Treatment Plans

Six-month, repeatable regimes designed to keep your skin healthy, resilient and radiant at every stage

At Olivia Cole, we believe great skin is built over time. Each of these plans is a carefully sequenced six-month journey, shaped around what skin needs most in each decade. Repeat your plan twice a year to maintain and build on your results, and we'll happily tailor any plan to you personally.

DESIGNED FOR YOUR 20S

Foundations & Glow

Hydration, collagen support and early eye care.

DESIGNED FOR YOUR 30S

Radiance & Renewal

Collagen support, gentle prevention and subtle balance.

DESIGNED FOR YOUR 40S

Restore & Rebuild

Firmness, skin quality and under-eye renewal.

DESIGNED FOR YOUR 50S

Renew & Redefine

Lift, collagen renewal and refreshed definition.

Foundations & Glow

Designed for your 20s

Your twenties are the perfect time to build healthy, resilient skin for decades to come. This plan keeps things simple and consistent: regular microneedling to steadily build collagen, a course of Seventy Hyal for deep hydration, and a course of AMI Eyes to look after the delicate eye area early. Repeat it every six months, with microneedling continuing every six weeks in between.

Your Treatment Timeline

What to Expect

Cosmetic Microneedling
Fine, sterile needles create controlled micro-channels in the skin, prompting your own collagen and elastin production. Done regularly, every six weeks, it steadily improves texture, tone and radiance - and it is the backbone of your plan, continuing for as long as you wish to maintain your results.

Seventy Hyal
A lightweight hyaluronic acid skin booster that delivers deep, lasting hydration from within. Across a course of three sessions, skin looks visibly plumper, smoother and more radiant.

AMI Eyes
A gentle under-eye treatment that hydrates and refreshes the delicate eye area, helping to soften the look of tiredness and fine lines. A course of three builds the benefit steadily.

Your At-Home Companions

If you would like to support your in-clinic results at home, we recommend a tailored Klira skincare routine and a Bon Charge red light device. These are optional recommendations from our specialist partners and are costed separately from your plan.

Klira Skincare - use code OLIVIACOLE20 for 20% off your personalised skincare routine.

Bon Charge - use code OLIVIACOLE for a discount on red light therapy devices for home use.

Your Partner in Transformation

We're thrilled to support you on this journey. This carefully sequenced plan builds results steadily over six months, with each treatment supporting the next - and we're here to guide you every step of the way.

Do you have any questions about this plan, or would you like to book your first appointment?

Warm regards,
Team OC

Radiance & Renewal

Designed for your 30s

Your thirties are often when the first subtle signs of ageing appear - a little less hydration, the earliest expression lines and a change in skin texture. This plan builds on our 20s foundations and adds monthly CACI muscle-toning, gentle expression-line softening every four months and a touch of filler for subtle balance, keeping your skin radiant and one step ahead.

CACI Red Carpet Facial

A one-hour luxury muscle-toning facial combining a collagen mask, LED light therapy and the CACI wrinkle comb. Monthly sessions keep skin lifted, bright and glowing.

Wrinkle Relaxing Injections

A gentle softening of the muscle movement behind expression lines, helping smooth the skin and prevent new lines from forming. Results develop over 10-14 days, with a complimentary tweak appointment offered in that window if needed. Repeated every four months to maintain your results.

Dermal Filler

Subtle, natural-looking enhancement using 1ml of filler in the area of your choice, designed to add softness and balance rather than change who you are. Your practitioner will talk through the best area for you at your consultation.

Restore & Rebuild

Designed for your 40s

Your forties call for a more comprehensive approach - addressing collagen loss, volume changes and skin quality together. This plan keeps your monthly CACI, six-weekly microneedling and four-monthly expression-line care, and adds Profhilo, Nucleofill for the under-eye area, a Plenhyage course for the face and HIFU to lift and firm.

Focused ultrasound energy lifts and firms the skin without surgery or downtime. Results build over the following weeks, with the full effect visible at around three months - a strong foundation for your plan.

Profhilo Course
A pure hyaluronic acid bio-remodelling treatment that spreads through the skin to boost hydration, elasticity and firmness from within. A course of two, spaced four weeks apart, leaves skin visibly smoother and more supported.

Nucleofill Soft Eye Course

A regenerative treatment designed specifically for the delicate under-eye area, improving skin quality, hydration and the look of fine, thin skin. Delivered as a course of three sessions.

Plenhyage Course (Face)

An advanced bio-stimulator combining hyaluronic acid with amino acids and antioxidants to support skin from within. Delivered as an injectable treatment in its own appointment, a course of three improves density, elasticity and radiance across the face.

Cosmetic Microneedling

Fine, sterile needles create controlled micro-channels in the skin, prompting your own collagen and elastin production. Done regularly, every six weeks, it steadily improves texture, tone and radiance - and it is the backbone of your plan, continuing for as long as you wish to maintain your results.

CACI Red Carpet Facial

A one-hour luxury muscle-toning facial combining a collagen mask, LED light therapy and the CACI wrinkle comb. Monthly sessions keep skin lifted, bright and glowing.

Wrinkle Relaxing Injections

A gentle softening of the muscle movement behind expression lines, helping smooth the skin and prevent new lines from forming. Results develop over 10-14 days, with a complimentary tweak appointment offered in that window if needed. Repeated every four months to maintain your results.

Dermal Filler

Subtle, natural-looking enhancement using 1ml of filler in the area of your choice, designed to add softness and balance rather than change who you are. Your practitioner will talk through the best area for you at your consultation.

Your At-Home Companions

If you would like to support your in-clinic results at home, we recommend a tailored Klira skincare routine and a Bon Charge red light device. These are optional recommendations from our specialist partners and are costed separately from your plan.

Klira Skincare - use code OLIVIACOLE20 for 20% off your personalised skincare routine.

Bon Charge - use code OLIVIACOLE for a discount on red light therapy devices for home use.

Your Partner in Transformation

We're thrilled to support you on this journey. This carefully sequenced plan builds results steadily over six months, with each treatment supporting the next - and we're here to guide you every step of the way.

Do you have any questions about this plan, or would you like to book your first appointment?
